## our services

### REHABILITATION CENTER

Recovering from orthopedic, cardiac or neurological conditions and surgical procedures can mean a rigorous process of rehabilitation to restore daily living activities and independence. Your recovery can benefit from a short-stay in a private room on our Rehabilitation Center, where patients receive rehabilitation services and the education they need to return home.

This transitional step between the hospital and home provides critical rehabilitation services that promote healthy and successful outcomes. In addition to the improvement from daily therapy services, **other benefits include:**

- Continuous vital sign monitoring system
- Medication management and adjustments
- Nutritional restoration and balance
- Transportation to medical appointments
- Discharge planning and home assessments

### VETERAN SERVICES

Exclusive provider of VA services in north central Ohio. If qualified, the VA pays for rehab, respite, hospice or long-term stay.

### DEMENTIA & MEMORY CARE

Premier provider of specialized care to individuals with Alzheimer's disease and memory related impairments on our secured Windsor unit.

### LONG-TERM, RESPITE & HOSPICE CARE

The Good Shepherd provides long-term care to those unable to live at home. We also offer short-term respite stays and hospice care.

### VENTILATOR PULMONARY CARE

Northcentral Ohio's premier provider of ventilator and pulmonary care services to patients experiencing acute and chronic respiratory disorders. Our in-house team of respiratory therapists and registered nurses administer our ventilator weaning and management program.

### THERAPY SERVICES

Our team of licensed physical, occupational and speech therapists offers customized rehabilitation services to each individual. Therapy services are available seven days a week and coordinated through each individual's physician. Outpatient services are provided to non-residents.

### ON-SITE DIALYSIS

The Good Shepherd is pleased to offer on-site dialysis through Fresenius Kidney Care. This partnership provides the benefits of home dialysis to residents living with end stage renal disease.
